

## AGENDA

CITY COUNCIL WORK SESSION  
NORTH COMPLEX, CITY COUNCIL CHAMBERS, 5160 MAPLE DRIVE

AUGUST 16, 2016

5:30 p.m.

### DISCUSSION TOPICS

**1. MPO:**

MPO would like to present an update on the Water Trails and Greenways project. This will follow a presentation they are did at the July 14th Park and Recreation meeting.

**2. Discussion with Snyder and Associates and DMWW about water service:**

The reconstruction of 70<sup>th</sup> Street along with the potential for development both east and west of 70<sup>th</sup> along the proposed Meacham Ave. corridor has raised the discussion again about obtaining water service from Des Moines Water Works from the former SE Polk rural water district, similar to the previous issue with the water main on 64<sup>th</sup> Street. We have met with DMWW and would like to update the Council and discuss options for water service in that area. Representatives from Snyder and Associates and DMWW will be present.
